

trading with her. I have not been able to find out any thing about Cora Jackson. in fact under the present Law here at this time we wont be safe in buying out any of those Indians. However I think out Leed to the Tony Adams Land is all O.K. as there dont seem to be any heirs ~~or~~ any one claiming it. if it had any improvement on it we could sell it for 20 or 25 dollars per acre.

I have not heard a word from the Indian Land in Miss. I will write our Senator who takes his Seat in the Senate at this term of Congress. about it and will let you hear from me if I can do any thing with it. you know we was admitted to Stolehook yesterday
